

THE CHARLEROI MAIL

VOL. XIX, NO. 95.

CHARLEROI, WASHINGTON CO., WEDNESDAY, SEPTEMBER 28, 1911

TWO CENTS

LOCAL LIBERTY BOND CAMPAIGN WILL OPEN THURSDAY EVENING

M. E. Church Selected As Place to Begin Local Drive

GOOD SPEAKER TO BE PRESENT

Charleroi's campaign for the Fourth Liberty Loan campaign will be formally opened Thursday evening, September 28, with a public meeting in the Methodist church at the corner of Washington avenue and Sixth street. Chairman Kerfoot D. Daly has invited all the workers of Charleroi, North Charleroi, Fallowfield township, Speers, Dunley, Twilight and Roscoe, as well as all other citizens who are interested, to meet in the church at 7:30 o'clock tomorrow evening, at which time the plans of the campaign will be made known.

The principal speaker of the evening will be Frank W. Hughes, of Pittsburgh, while a local Four Minute Man will also be on the program. Chairman Daly and Local Chairman Patterson will also outline certain features for the campaign in this immediate vicinity, and every detail which is to enter into the big drive will be made known. For this reason it is particularly desirable that every citizen that can make it convenient to attend should do so, that they may be advised of what this local committee has in view in order to put over the campaign in this community. Charleroi's quota for the Fourth Loan is double that of the Third Loan, and this fact makes it incumbent on every resident to do more than ever before in making the campaign a success.

The posters advertising the campaign were distributed by Chairman Daly yesterday and all the surrounding communities and the greater portion of eastern Washington county were supplied from the central office in Charleroi. These posters are now in place and are serving their purpose of advising the public of what is to come. The campaign in Charleroi will be strengthened by local features of a very interesting character, all of which will serve to bring forcibly to the attention of the people the advisability and necessity of purchasing bonds of the Fourth Liberty Loan. The meeting tomorrow evening in the Methodist church will be the opening gun, and the public as well as the workers are expected to be present.

BUY LIBERTY BONDS
ARE ASKED TO MEET WITH CHAIRMAN DALY

All gentlemen who received notices last week from Mr. Daly with reference to a local male chorus are requested to meet this evening at headquarters, 306 Fifth street, at 7:30 o'clock for instructions to be given by Prof. I. T. Daniel.

BUY LIBERTY BONDS
From the remarks made in the Congressional Record it is evident that our policies are not altogether adjoined friends.

Remarkable Run of The Steamer Clairton

The new tunnel hull propeller Clairton, the recent addition to the Carnegie Steel Company fleet of steamers, made a remarkable run from Lock No. 3 to Lock No. 4 on Tuesday morning at Donora, where a barge was dropped off, about 15 minutes being lost in the landing, thus making her real running time between the two locks one hour and 45 minutes. This is said to be the best time on record for a steamer with a tow of this kind, and it is doubtful if even the sidewheel packets in their best days ever equalled this remarkable run.

It was given out in the columns of the Mail in a recent issue that the Clairton was being watched with much interest, not only by the owners and builders, but by steamboatmen as well, as there are always some doubting Thomases, but her record Tuesday afternoon in her record run will dispel all doubts as to her "go-ahead" ability.

While the Clairton is new and a little stiff, her owners are confident of her success as a pool boat, so much so that it is said by employees that the company contemplates building four more of the same pattern. Some changes will be made in the boat just as soon as the Wayman and the Duquesne, now undergoing repairs, are placed in commission. Her pilot house will be altered and some other changes made to her upper works, but probably the most radical change to be made and an innovation which will also be watched with interest, will be the changing of the furnaces, which are now of the stoker pattern to what is called "bar burners." The Clairton plant, which is a by-product of the Clairton, will be used as fuel, instead of coal. Should this prove a success and there is no reason why it should not be, the fuel bill of the boat will be greatly curtailed. The Clairton passed Charleroi Tuesday afternoon shortly after 3 o'clock, making about 8 miles an hour with five steel barges in tow.

Capt. Charles Leasure is in command of the Clairton, with Capt. Frank Culp, a veteran Ohio river pilot, as his side partner. Capt. Al Ackard is doing duty as shore boss for the Carnegie Company for the present, but experts to have charge of the new steamer, J. C. Cingerman, now building at the James Rees shops in Pittsburg, which is expected to be placed in commission by the middle of October. The completion of this new boat has been very much delayed on account of the scarcity of skilled labor. It is said that many new improvements will be introduced on the new steamer, which are calculated to make it a class that may make Clairton just as soon as the Wayman and the Duquesne, now undergoing repairs, are placed in commission.

WASHINGTON COUNTY QUOTA \$9,358,950
The Fourth Liberty Loan quota of Washington county has been fixed at \$9,358,950. The quota for the Third Liberty Loan was \$4,668,450. From these figures it will be seen that the quota of the county has been doubled which means that the quotas of the various communities in the county have been placed at twice the amount of the previous loans.

OFFICIATED AT FUNERAL IN BELLE VERNON
Rev. John R. Burson was in Belle Vernon Tuesday, conducting the funeral of the little daughter of Dr. and Mrs. Stephen Speer of that place. The child's death was very sudden and the parents have the sympathy of the whole community. Mrs. Speer, it will be remembered is a sister of L. J. Mitchell of the First National Bank. The little one's name was Maryland Malissa Speer and was eleven months old.

BUY LIBERTY BONDS
Marris Saul left Tuesday for Camp Sherman where he will enter the training camp.

BUY LIBERTY BONDS
The Liberty Loan drive is gaining impetus in Charleroi. While bonds cannot be sold before 9 o'clock Saturday, public sentiment can be piling up in such a way as to start the subscriptions off with a rush.

WILL ABOLISH GRADE CROSSING AT CLAYSVILLE
The public service commission last Friday made an order abolishing the grade crossing on the National Pike at Claysville and apportioned the cost amounting to \$110,000, as follows: State of Pennsylvania, \$25,000; Washington county, \$5,000; Donegal township, \$500; State Highway Department, \$39,750 and Baltimore & Ohio railroad company, \$37,750. The state highway department and T. J. Underwood, county controller, complained of the crossing.

BUY LIBERTY BONDS
GAVE AGE WRONG IN REGISTERING
W. G. Hall of California, appeared before the registration board of California last week with a sample blank all filled out just as he wanted it. On the bottom of the sample he had marked, "I want to enlist."

It happened that Mr. Hall presented his card to John B. Myers, one of the board and when Mr. Myers saw that the age given by Mr. Hall was 31, he said to Mr. Hall, "If your blank is correct we can do nothing for you." Mr. Hall insisted that it was correct and that he wanted to enlist. He was dismissed with instructions that if he wanted to enlist he should go to the proper place to do so. The next day Mr. Myers got busy and found that Mr. Hall had joined three orders in California, giving his age as 42. Wednesday evening last the registration board asked Officer Lake to bring Mr. Hall before them, which he did. The result of the investigation was, that Mr. Hall was held to appear before the local board at Ellsworth on Thursday. He was retained in the borough lockup over night and the next day, after a short investigation he expressed himself as being willing to register at the age of 42, which he did, after which he was permitted to return home.

AIRPLANES AT THE COUNTY SEAT
Two military airplanes, manned by United States Army aviators, will be features of the big Liberty Loan demonstration at Washington on Saturday. These planes will be of the CH-4 type of the battleplane class, each of which will be equipped with machine guns and bombing devices such as are used in France. They will be driven by 12-cylinder Liberty motors, the standard airplane motors of the United States. These two big machines will leave the Wilbur Wright Field, Dayton, Ohio, Friday afternoon, and will make the distance to Washington, 190 miles, in a little over two hours. During the parade the machines will maneuver over Washington.

BUY LIBERTY BONDS
No subscriptions are to be taken to 9 a. m., September 28. Quotas of each community must be raised by bona-fide subscriptions in hands of Liberty Loan committees or banks. In addition to raising its quota in dollars, at least 10 per cent of the population of a community under the 1910 census must subscribe. A star will be awarded each community that exceeds its quota by 5 per cent and an additional star for each additional 50 per cent. In the district there will be competition in the following classes, according to population: Less than 10,000; 10,000 to 25,000.

Do It the First Day

By Wilbur D. Nesbit

You know you are going to buy Liberty Bonds.
 You wouldn't be square with *yourself* if you didn't.
 You couldn't take off your hat to the flag with half the sense of *ownership* if you didn't.
 You couldn't cheer the marching line of troops with half the *thrill* if you didn't.
 You couldn't watch the Jackies go by with half the *pride* if you didn't.
 You couldn't glimpse a battleship off the coast with half the *joy* if you didn't.
 You couldn't read the war news with half the eager *faith* if you didn't.
 You couldn't be 100% *American* if you didn't.

You know the Fourth Liberty Loan starts September 28th.
 You know that buying a Liberty Bond isn't making a *gift*.
 You know you are simply lending your money to your Government—to the best *friend* you and your mother and wife and sister and daughter have.
 You know what *security* is back of your loan—security that means good interest and that your money will be paid back to you.
 You know all of that—you know the *business* side as well as the patriotic side of it.

Then, buy your Liberty Bonds the very first day of the Loan. Don't wait. Do your thinking beforehand. You don't need to consider it; you don't have to be *argued* into it—you *know* you will buy Liberty Bonds. Be one of the first to get the badge of *honor*—the Liberty Bond button. Get yours on the first day—September 28th. You *know* what an example that will set.

Make September 28th *your* Liberty Bond day.
 Could you do a better thing right now?

MAKE THE MOST OF THE APPLE CROP

Most people know apples are healthful. But a great many do not know that they are among the most nutritious of fruits and that their value in this way is higher than that of many every day foods commonly regarded as indispensable to our tables. One pound of raw apples has the food fuel value of 200 calories. Translated into every day terms this means that apples have about three fourths the nutritive value of potatoes and as every one knows, potatoes are a solid and dependable food.

Without realizing the real food value of apples, however, people have nevertheless eaten them freely for hundreds of years—yes even back in prehistoric times apples were a common article of food.

Scientists tell us that apples in the common form probably originated thousands of years ago in that part of the world south of the Caucasus and watered by the Tigris and Euphrates—where the garden of Eden is generally supposed to have enchanted our first parents.

America is now the leading apple growing nation of the world. This involves a great responsibility on us this year, for with food all over the world so scarce, it becomes almost a sacred trust not to let any of our apple crop go to waste.

In every home, which has storage facilities, as many barrels of apples as can be used should be stored as soon as the good winter apples are in the market.

The windfall apples should be saved by drying. Cut out the bruised part, pare, core and slice. Then drop into cold water containing eight teaspoonfuls of salt to the gallon. If a light colored product is desired. Leaving them a minute or two in salt water will prevent discoloration. Remove surface moisture, dry in sun or over stove until leathery and pliable.

The best mint jelly is made with the juice of slightly unripe apples as a basis. Wash fresh mint leaves thoroughly. To 1 cupful of mint leaves (packed solid) add 1 cupful of boiling water; set the mixture on the back of the stove, and steep it for one hour. Lay a piece of cheesecloth over a bowl, pour the steeped mint leaves into it, twist the ends of the cheesecloth and press out all the moisture.

To 1 cupful of apple juice add 1 to 2 tablespoonfuls of mint juice. If the mint flavor is not sufficiently pronounced, add a drop or two of mint extract. Use 3-4 cupful of sugar to each cupful of apple juice and boil the mixture rapidly until the jelly test is obtained. Just before it is poured into the scalded glasses, color it green with vegetable coloring matter.

Early apples make the best apple sauce. Here is a new way to sweeten and flavor the apple sauce and add more food value to the dish at the same time.

1 quart of apples.
1 cup seeded raisins.
1-4 teaspoon salt.

Wash, quarter, and remove stem and blossom end from apples; put on stove with 1-2 cup water. Cover, and as soon as the apples get soft start mashing. When tender, mash through colander or wire strainer, return to fire, add salt and raisins which have been washed, dried and put thru food chopper. Boil slowly 10 minutes.

NOW OR NEVER

This is no time for us to consider anything but our effort to bring Germany to her knees. We must win now or never.

For forty years Prussia has been planning for this war against the world. Nothing that the best brains of Germany could conceive has been neglected. Every preparation had been made for a day before the first gun was struck.

There was no hesitation about the German declaration of war. They made it as rapidly as the German forces could be mobilized for action.

There was no hesitation about the invasion of Belgium. No stopping for discussion of "the scrap of paper." Germany had every move planned. She went straight to the work of carrying them out.

And were she to win would be no more hesitation about the terms she would impose than there was about her first drive.

The Germans went into this war fully decided upon what they wanted to accomplish; what they wanted to impose upon the world. Knowing this we can never consider compromise with her.

We must trounce her to a frazzle. Whip her so completely that she will be willing to sign any kind of a treaty to save her existence. It must be unconditional surrender when it comes to final terms. She must abide by the world decision.

Billions of dollars have been expended already by the allied nations. Billions more will be spent. Millions of lives have been sacrificed and millions more may have to be. It has been the most stupendous world drain since the dawn of earth.

And unless we win she will impose indemnities that will keep our progeny in virtual slavery for centuries to come.

Considering all of which the purchase of a Liberty Bond seems a matter about which no sane man could quibble for a moment.

TAKING THE TURK

The success of the British campaign in Palestine directs the attention of military observers to the eastern situation, which may have a more important effect on the general war situation from now on than ever before. The practical destruction of two Turkish armies by the British forces will have the result of taking a large extent of territory from Turkish rule, and making the Ottoman empire realize that as the situation now stands, Germany is unable to extend any aid to its ally, which, from this time on, must go it alone in the continuation of the war.

The east has been very quiet for some months, but all this time the British army was preparing for the campaign which is now under way and which promises to oust the Turk from his Asiatic possessions. Moreover the situation in Balkans is more favorable to the allied nations than at any time since the beginning of the war over four years ago, the Serbians and the Greeks in conjunction with French and British contingents, defeating the Bulgars, taking many prisoners as well as guns and munitions.

These events coming with such rapidity and in such a short space of time are apt to give the Turks something serious to think about, and which may result in the Ottoman empire being taken completely out of the line-up of Tectonic powers. Should this be the result of the campaign, now being conducted by Gen. Allenby, it would leave Bulgaria in a precarious situation, with a likelihood of being decisively defeated and stripped of all territory it has taken from Serbia and Roumania. The eastern military campaign is fraught with many possibilities, many of which are apt to be realized before the winter is over.

UP TO US.

It's up to us again!

We are being given a chance to back the boys over there by buying another Liberty Bond—and we are going to do it. We are going to dig deep into our pocket to stand behind those khaki-clad young fellows of ours who are making good in France. They are going to find out that we over here carry a punch just as they do.

Every day news that makes us proud of our kin is flashed over the wires to us. The Yanks are going forward with their shirt sleeves rolled up. They have taken off their coats to tackle the big job before them. They are not quitters. They will "go through" if we give them half a chance. If we don't get them and lie down on our part of the job.

Americans aren't quitters. When they know they are right they see a

thing through to a fighting finish. This time they know the yare right. Uncle Sam wants to see a new Liberty Bond in every home. More than 600,000 subscribers were entered in the first Loan, 5,400,000 to the second 17,000,000 to the third. Thirty million ought to subscribe to the fourth in any way. We can't let George do it. Every mother's son has got to do his share. It's up to us again.

THEATERS

An important acquisition to the motion pictures from the stage is Fred Stone, famous comedian of musical comedy, whose first photoplay, "The Goat" a production of the Arcraft studios, will be shown at the Million Dollar Grand for the week beginning Monday morning, Sept. 30. The speaking stage was no more popular or versatile comedian to the film world than Mr. Stone. For years he has been touring the country and enjoying long runs on Broadway in plays filled with fun, and his admirers are numbered among the millions.

Mr. Stone is a star of the active kind. Like Douglas Fairbanks he is a genius of physical agility and his accomplishments along this line are most numerous. With his partner, the late David Montgomery he created a furore from coast to coast several years ago in the "Wizard of Oz" in which he played the lively, grotesque scarecrow. His other plays were equally successful. Besides being an imitable dancing and pantomimic comedian, he is an expert on the tight rope, throwing the lariat, bareback riding, skating and in many other things. Both his powers of acting and unique personality are easily transferred to the screen. The limitations imposed upon his art are removed before the camera and these facts, among others, are expected to win him great quantities of new followers among film fans.

Hobart Bosworth in his dramatic version of Jack London's "The Sea Wolf" which is to be offered as the principal production in a bill of nine vaudeville acts at the Davis Theatre every afternoon and evening next week, opening Monday, September 30th, succeeds in bringing to the story of the London life and virility and makes the playlet as grippingly interesting as is the original novel. In view of

the wide popularity which the book attained, Mr. Bosworth in thus visualizing its psychology and atmosphere may be said to have previously achieved a result worthy of the theatre's highest artist. He had previously utilized London's story in the film, where it was generally conceded to be one of the very best feature pictures ever screened. In the dramatization he has succeeded in capturing the picturesque atmosphere and the breadth of locale possessed by the original narrative. This is accomplished by employing a part of the film in conjunction with a spoken dialogue exceedingly forceful and exceptionally well rendered by the eminent star and his supporting players.

Born—To Mr. and Mrs. D. R. Sullivan a daughter, Mary Regina.

Born—To Mr. and Mrs. Lawrence E. Cuneo of Dunbar a nine pound daughter, Mrs. Cuneo was formerly Miss Clea Parding of Fallowfield avenue.

Francis J. Bery a member of the 330th Infantry band which trained at Camp Sherman and is now in service in France has been promoted from a first class musician to Sergeant of the band.

Joe Cancelli a member of the Engineer Training Battalion at Camp Humphreys, who has been spending a short furlough at home, returned to the cantonment today noon. Joe was heartily greeted by a large number of friends in Charleroi, who remember the patriotic actions of this young Italian prior to his departure for military duty.

WATCH YOUR KIDNEYS

Inhalant the fumes of turpentine and white lead often weakens the kidneys. That's one reason why so many painters have bad backs and sick kidneys. Exposure, frequent colds and chills and the strain of climbing up and down ladders help start the trouble.

If a back aches, if sharp pains strike you in the back when stooping, lifting or working; if you have headaches, dizziness, rheumatic pains; if the urine is discolored or passages painful and scanty, try Doan's Kidney Pills, the remedy so widely-used and so well-recommended by men in the painting trade. Here's convincing testimony:

Alonzo Clegg, painter and paper hanger, Box No. 18, Belle Vernon, Pa., says: "About a year ago my kidneys got weak. The doctor claimed that the fumes from the turpentine caused the trouble. I had a constant pain in my back and when I reached over or exerted myself, sharp, shooting twinges darted through my arms and shoulders. The kidney secretions passed too frequently and caused a burning sensation. I noticed that the secretions were highly colored and they deposited sediment. My head ached most all the time and I often got so dizzy that I could hardly stand. I tried almost everything I knew of but wasn't benefited until I got Doan's Kidney Pills. One box cured me."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that cured Mr. Clegg. Foster-McBurm Co., Props., Buffalo, N. Y.

Remove blackheads, soften rough skin, clear the blood, brighten the eyes, sweeten the whole system. Nothing helps make a pretty face, winsome smile, as Hiltner's Rocky Mountain Tea. Try it tonight. 35 cents. Hennings Drug Store.

NOTICE

If you want to sell your house, for all it is worth, now is the ideal time to do it. We are selling houses every week, and have dozens of people looking for houses at the right price. Send us your price and description this week, and in a few weeks later call and get your money for the property.

DOCTORS MAKE IMPORTANT ANNOUNCEMENT

They Take The Public In Their Confidence

Reliable physicians believe that broken down nerve tissues need not a brace but a builder like phosphates and iron. To get these essential food tonics to the nerves has long been the big question.

A successful physician says, "Phosphated Iron is an especially adapted discovery that has solved the problem of giving Phosphates and Iron in such a way that the nervous system can actually take hold of it."

Another an equally important mission of Phosphated Iron is to build up anaemic (thin, weak, watery) blood by charging it with good health-giving iron.

A leading Doctor says: "Phosphated Iron is the best Iron tonic that I have ever prescribed, its results are remarkable."

Strengthening the nerves, building up their starved tissues and recharging weak, watery blood with the great health restoratives Iron and Phosphated Iron. You who are nervous, weak, anaemic (lack of iron in the blood) all in and run down cannot afford to turn down the help that Phosphated Iron offers.

Special—To insure physicians and their patients receiving the genuine Phosphated Iron we have put up in capsules only, so do not allow dealers to substitute pills or tablets. Insist on the genuine, in capsules only. W. F. Hennings the druggist and leading druggists everywhere.

I want a man to sell household necessities in Charleroi, Monessen and Belle Vernon. He can earn from \$40.00 per week and up. Must call at once on Mr. Scandrett, Hotel Wilbur, Charleroi, Tuesday and Wednesday after 5:30 P. M.

REMINGTON UMC

Wetproof Steel Lined Shot Shells

MAKE your showery hunting days this Fall the good days for ducks they really ought to be, with the right shotshells—Remington UMC Smokeless "Arrow" or "Nitro Club" Wetproof Steel Lined "Speed Shells." No matter how much water may get to them, they will actually stay just as dry and serviceable as your Remington UMC Pump Gun or Autoloading Shotgun.

Those finest of shoal-water fowl, the big mallards—which you can seldom get with-in gunshot of when it is calm and fair—are then not so quick to take wing. But your shells must be right. Hunting has no worse luck than a water-soaked shell that has swelled and sticks in the gun at a critical moment—to say nothing of a "miss" caused by wrinkling of the turned-over end of the shell.

Remington UMC Smokeless "Arrow" and "Nitro Club" Wetproof Steel Lined "Speed Shells" are made waterproof by a wonderful process, invented for them and used exclusively in their manufacture.

It took three years to perfect this process. The result is a shell that will work and shoot right throughout an all-day downpour—keeps hard and smooth with no softening of the turned-over end or bulging of the top wad in the wettest coat pocket.

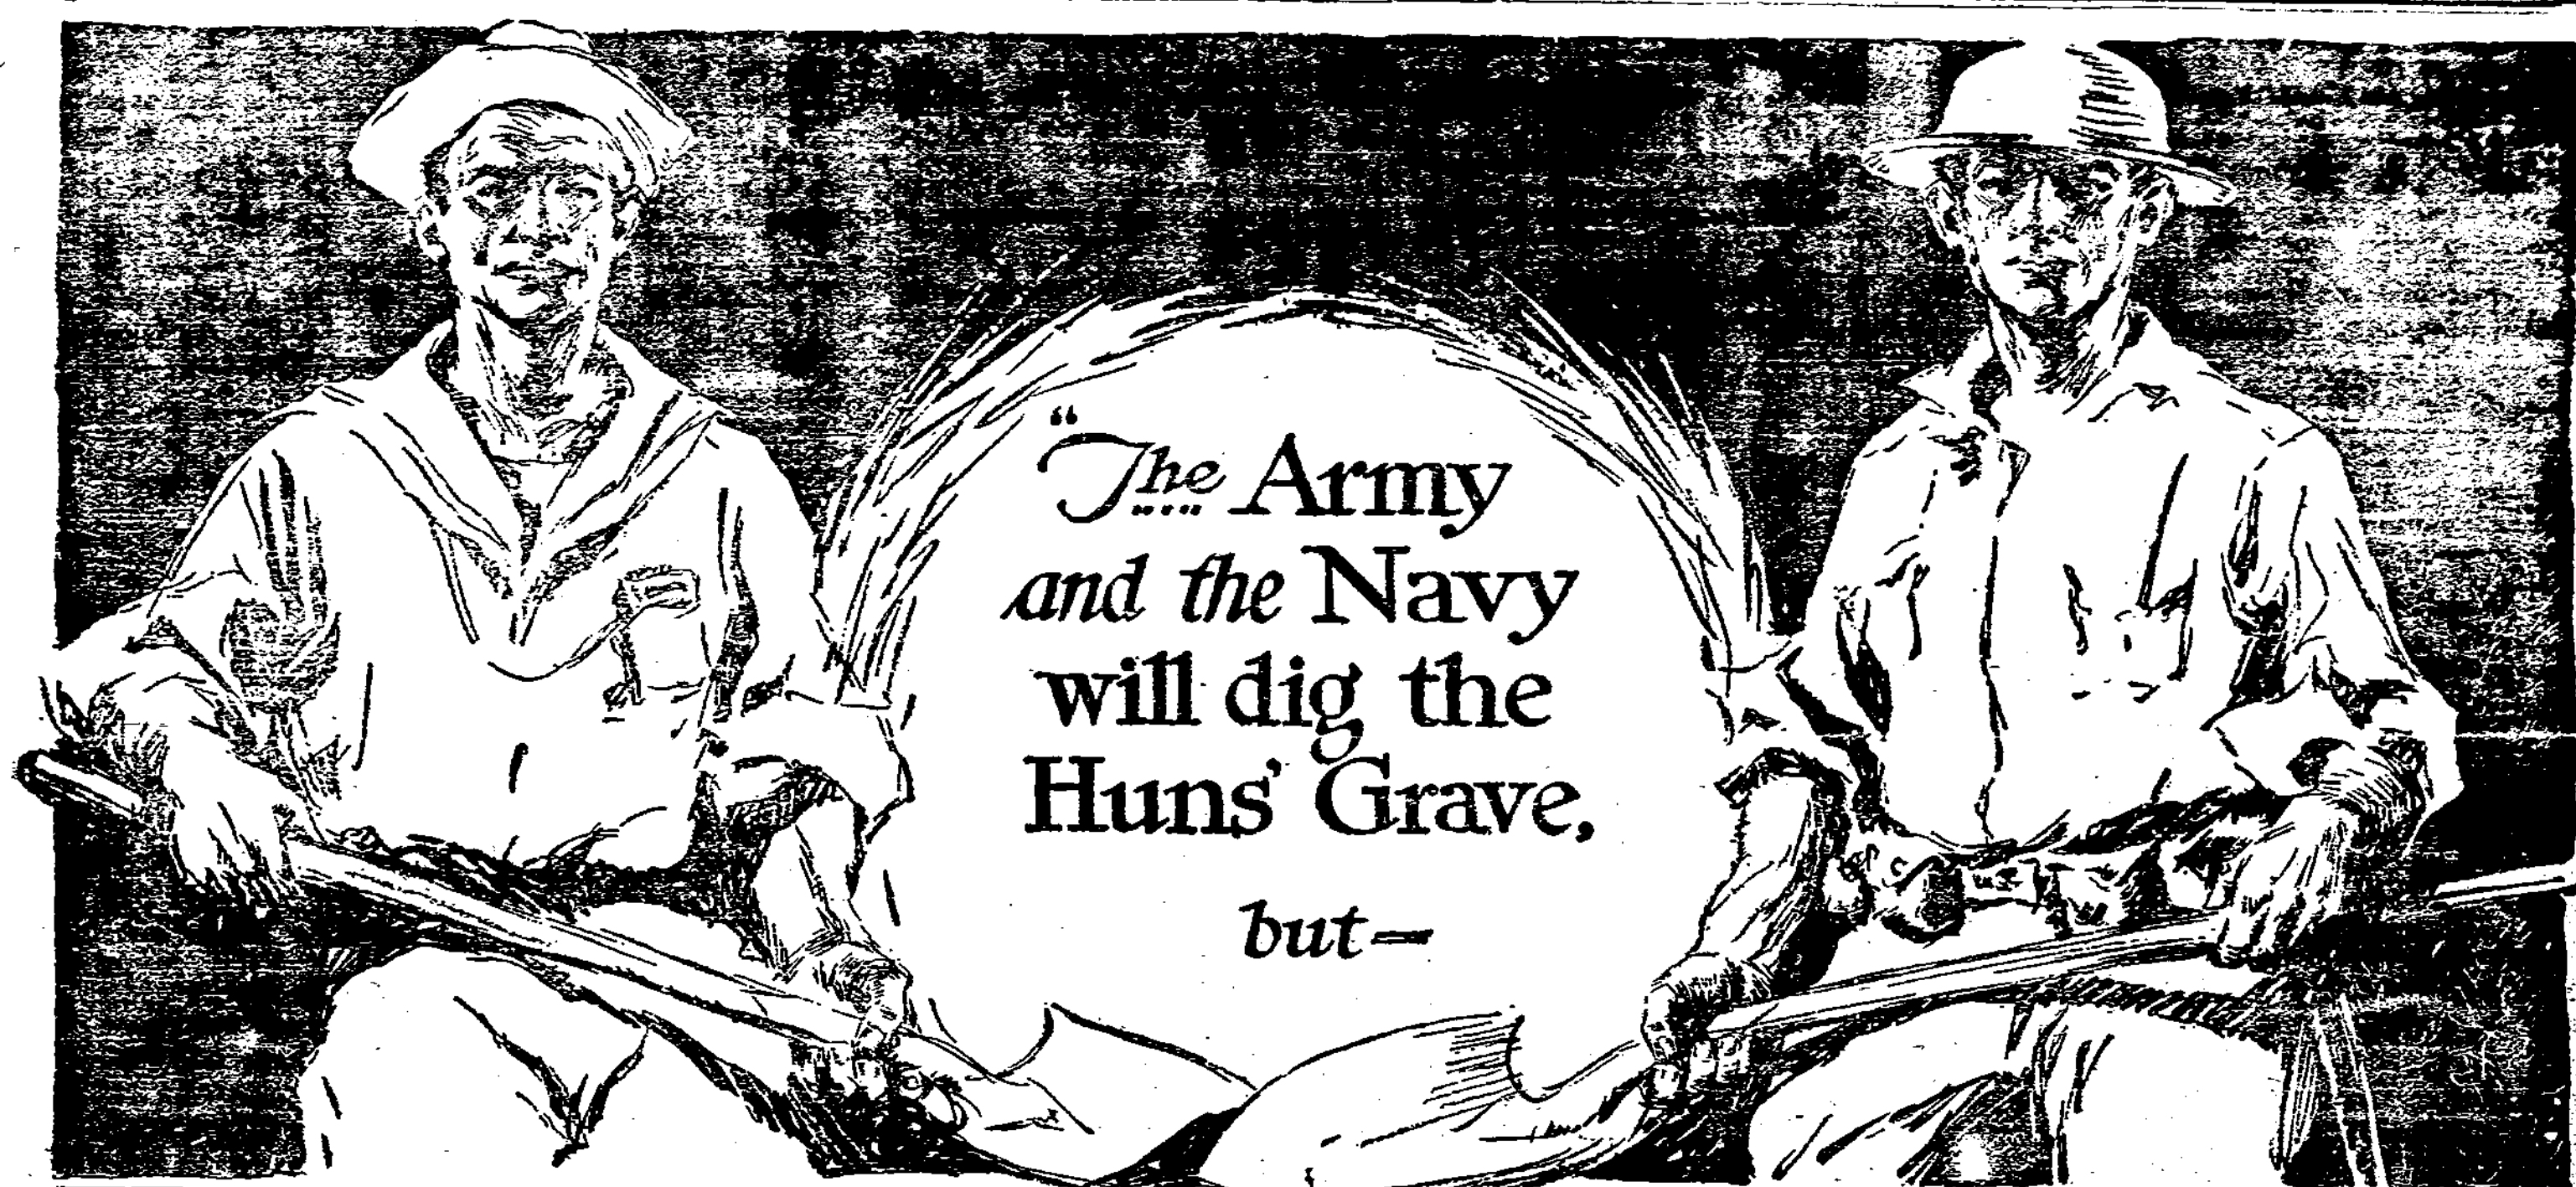

You buy the same favorite brand, at the regular price, and get the Wetproof improvement without cost. The first completely waterproof shotshell, at the same time having the uniform superiority of speed, pattern and penetration for which Remington UMC "Arrow" and "Nitro Club" Steel Lined "Speed Shells" are famous.

In black powder, buy the old reliable "New Club," now Wetproof sealed at turnover and top wad.

We Must Furnish the Spade" — Billy Sunday

By REV. WILLIAM A. SUNDAY

Uncle Sam's Liberty war chest needs filling again!

We have the cash to fill it as many times as he lifts the lid.

There are only two horns to this dilemma—you are either a patriot or a traitor.

The men on the firing line and on the battle-ships have turned from business, home, mother, wife, children, and they stand ready to give their lives and shield with their bodies us who remain at home.

We are unworthy to be thus protected, if we do not do our utmost to sustain them.

We must be one in our determination to win this war. We are traitors to the cause for which they are giving their lives, if we do things here that make their efforts harder.

Life is not worth living unless there is something to live for. *Life would not be worth living if that bunch of Heines should win.*

That is why they cannot win. That is why we cannot lose.

What a mountain of crime God has on his books against that horde of Hellish Huns. What grave is deep enough for this thousand-armed, thousand-footed,

thousand-headed, thousand-horned, thousand-fanged pirate of the air, assassin of the seas, despoiler of the earth and ambassador of Hell!

The army and navy will dig the grave, but we must furnish the spade.

Our boys will soon hang crape on the door of the Potsdam Palace, and the bands will play Yankee-Doodle and Dixie along the Rhine.

Uncle Sam is the cactus in the Kaiser's pillow.

Our Boys have gone over to clean up on that fool bunch of Huns and it is up to us to supply them with whatever they need to finish the job. It takes money to keep the riveters riveting—the sawyers sawing—the machine guns spitting bullets and the grub wagon always on hand with the eats. There is nothing too good for our brave defenders.

Our vocabulary contains no words adequate to express our approval of the achievements of our government since we threw our hat in the ring. We are rich on top of the ground; we are rich under the ground and our rivers creep like silver serpents to the seas, bearing our products.

The children of England, France, Italy and Belgium are laughing once more because they are being fed from Uncle Sam's bakeshop. One carload of meat every two minutes, one hog out of every four, nine million pounds of meat a day—all going over to feed our boys. We are in this scrap to the last dollar, the last grain of wheat, the last day.

We will never stop until Germany dips her dirty blood-stained rag to the Stars and Stripes. It's a whale of a job we've tackled, but we can and must put it over.

But you must help.

Don't whine. Don't knock. You can't saw wood with a hammer. Don't turn the hose on the fire; add fuel.
